

Tower Toaster

Price: €89.00

Short Description

Tower Toaster T20030

Add a touch of Glitz to your kitchen and make your breakfast time sparkle with this stylish 4 slice toaster, featuring a distinctive black finish and chrome base. It features a centering function and up to 7 browning options so you can get your toast, muffins or crumpets to the texture and consistency that's right for you. If you have a loaf in the freezer and need a quick bite to eat, then the handy reheat and defrost functions will let you toast straight from frozen. This toaster also includes a removable crumb tray, which collects all of the excess crumbs that can be easily disposed of, while the added cord storage keeps your countertop neat.

Toasted to Perfection

The 7 browning options and self-centering function means your toast, muffins and crumpets will have the taste that's right for you. It also features reheat and defrost functions so you can toast your bread straight from frozen.

A Sparkling Design

This toaster has been designed to add that extra level of Glitz to your kitchen, featuring a stylish sparkling black finish and chrome base that really makes a statement compared to other appliances.

Long-Lasting Durability

It's important that your appliances stand the test of time. This toaster has a sturdy metal body so you can be sure it will have stability on your countertop and durability.
