

Tower Vacuum Cleaner

Price: €169.00

Short Description

T108000 PETS

Capture embedded dust, allergens, and pet dander from around your home with the cyclonic suction performance of this bagless vacuum cleaner.

The 750W motor uses 100W of suction power to easily retrieve unwanted dust and dirt and store it in the large 2.5-litre detachable compartment until it requires emptying. The HEPA filtration system traps a larger number of small particles compared to other vacuum cleaners, giving you better and more thorough cleaning results throughout your home. The 6-meter cord length offers extra reach, leaving you free to vacuum around a number of rooms.
