

# Tower Iron Board

Price: €99.00

## Short Description

T873001RGB

Iron your laundry across the robust mesh surface of this small ironing board from Tower. The solid design of the iron rest provides a suitable resting place between ironing, while the soft foam layer atop the durable mesh ironing frame allows an evenly smooth surface to work from. The adjustable height reaches up to 92.50cm for ironing as you stand, or shorten the height to iron sat down. The locking mechanism securely holds the height of the board in place during use, while the non-slip caps across the feet provide stability on all carpets and hard floors.

## Additional Information:
