

Beko Chest Freezer

Price: €569.00

Short Description

HSA40530N

MinFrost (Ice build-up to a minimum): The ice that forms in static refrigerators can cause foods to stick together and increase energy consumption. The special MinFrost evaporation system minimizes the formation of ice in the freezer. This way frozen foods are stored better, you save energy and you will spend less time defrosting the freezer.

Additional Information:

| | |
|-------------------|-------------------------------------------|
| Brand: | Beko |
| Freezer Capacity: | 360L |
| Cooling system: | Manual defrost, Static |
| Colour: | White |
| Noise Level: | 40dB |
| Energy Label: | F |
| Consumption: | 313 kwh per year |
| Dimensions: | Depth 67.5 cm, Height 86 cm, Width 129 cm |
| Warranty: | Parts – 3 years & Labor – 3 years |
