

Laica Pulse Oximeter

Price: €29.00

Short Description

EA1007

The **LAICA EA1007** finger pulse oximeter is a non-invasive device that allows the measurement of arterial oxygen saturation (SpO2) and heart rate (pulse rate). Oxygen saturation indicates the percentage of hemoglobin bound to oxygen in arterial blood. Saturation is measured by a method called pulse oximetry.

Includes:

- Pulse Oximeter
- Strap
- Batteries
