

# HAPPYFRIZZ CO2 Cylinder

Price: €35.00

## Short Description

**Universal:** Our 425g cylinders, equipped with a Ø 21-6 ACME threaded connection, can be used with the main carbonators on the market, such as Imetec bubbles, The Beghelli water machine, Wasserm maxx, Wassermate, and Sodaclub.

**Safe:** before each filling, each cylinder is thoroughly sanitized.

**High filling precision:** each cylinder is filled with exactly 425g of CO<sub>2</sub> with a maximum difference of 10g (6% more CO<sub>2</sub> compared to other bottles on the market).

**Guarantee:** the system performs an automatic check and in the event of minimal leaks, the cylinder is thrown out of the production cycle.
