Automatic cooking made easy.

With AutoPilot 8 you can cook your meal to perfection. After placing the dish in the product, set – out of 8 – the appropriate automatic program in the display menu. Just add the weight of the dish and press "Start". AutoPilot then takes over and determines the cooking mode, temperature and cooking duration. It even switches off the program towards the end of the cooking time. As some dishes with the AutoPilot require the use of ovenware with a lid, the interior walls also stay clean.
