

Beko Toaster

Price: €59.00

Short Description

TAM4341W

Cancel/defrost/reheat

Take bread straight from the freezer and have fresh toast in minutes with the defrost setting. The cancel button lets you stop toasting when you choose and the reheat function is great for warming through without browning

Dial control

Ensure the browning of your toast is exactly how you like it with our fully adjustable dial control. You can alter the heat with precision to allow for thicker slices of toast, bagels or crumpets.
