Price: €1,399.00

## Short Description

OLED65A26LA

### Infinite contrast

Black is the absence of light. And only self-illuminating pixels can give you perfect black because there's no backlight. That's why our OLED TV catches your eye: the infinite contrast given by the absence of superfluous light makes every scene a wonderful composition of lights that seem alive. No halos, no washed-out colors, no loss of detail.

- LG OLED with self-illuminating pixels and 4K resolution
- AI-powered α7 Gen 5 processor with Dynamic Tone Mapping
- Minimal design with thin edges to maximize visual immersion
- Dolby Vision IQ and Dolby Atmos

**Warranty:** 2 Years Parts & Labour
